Legend: (I) = Membership has been transferred; (✓) = This is the isCurrent membership for this member.

When an account is “In Progress”, there is additional wording underneath the specific role in question regarding what is putting your account in the “In Progress” status. In the above case, it is due to needing a background check.

In Progress memberships happen usually while the background screening is in process. This may also happen due to missing a required course for your role; such as the SafeSport or Concussion Awareness certifications needed to be a coach in [good standing](#). Please review the player protection package as to the steps needed.

If you have an “In Progress” account and are unaware of the missing requirements, please contact USA Rugby and we can help you get into good standing.
