**Questions? [Contact Us](#)**

Are you interested in helping raise money for USA Rugby Trust? Why not throw a party? Whether you are a supporter of one of our national, Olympic, or age grade All American teams, or support one of our various programs impacting youth or membership, hosting a Cottage Party is a unique and fun way to show your enthusiasm and support for your favorite program in a very personal way while including your fellow rugby enthusiasts. By hosting a private fundraiser in your home, you control all aspects of the event including the size, guest list, menu, etc. You set the fundraising goal and then make it happen! Depending on the location, previous cottage party supporters have hosted events which sometimes have included team players and coaches in attendance.

An event organized by an individual, community group or company that is not an official USA Rugby Trust activity is considered to be a "Third Party" event. Acting

independently and with the USA Rugby Trust's approval, third party events are an important resource for raising funds to help us support our mission. Although the Trust actively encourages third party fundraising events, we must approve all events in advance. The Trust reserves the right to decline affiliation with events. This is an important safeguard in preserving the integrity of the name and the reputation of the Trust, as well as our commitment to donors. To the extent that we are able, USA Rugby Trust will do its best to work with you in a collaborative fashion to make your party a success!
