

Log in to your [USA Rugby profile](#). Once logged in, click the gray character outline found inside your member card. If you have not previously uploaded a photo this outline will have a white question mark for a face and say both “No Photo” and “Click to Upload”.

Clicking this outline will open a new window giving you an option to upload a picture. After choosing your file, click “Upload Photo” to load the photo onto your profile.

After uploading, you will be given an option to modify the picture. These options include rotating the picture, enlarging the picture, and shrinking the picture. You also have the option of setting the focus of the picture to fit your membership card. Use the blinking box inside the photo on the upper left hand side of the screen to highlight your photo. Once you are satisfied with your photo, click "Save & Close".

This will close the additional window. You should now see your photo reflected on your membership card. Those with issues should contact [membership@usarugby.org](mailto:membership@usarugby.org).
